PROFILE

Motivated and adaptable ICT Graduate with strong foundational skills in software development and business process automation. Proficient in C#, Java, Python, HTML5, CSS, and the React framework, with experience in version control using Git and agile collaboration through Jira. Currently growing as a Junior Automation Developer using the Workato platform to streamline workflows and integrate systems. Certified in Microsoft Azure Fundamentals (AZ-900), SAP, multiple Workato automation modules, and Intro to DevOps, demonstrating a solid understanding of cloud, enterprise systems, and continuous delivery practices. Passionate about solving real-world problems with clean, efficient code and automation.
