PROFILE

Motivated and adaptable ICT Graduate with strong foundational skills in software development and business process automation. Proficient in Typescript, Javascript, C#, Java, Python, HTML5, CSS, and the React framework, with experience in version control using Git and agile collaboration through Jira. Previously worked as a Junior Automation Developer using the Workato platform to streamline workflows and integrate systems. Currently growing in the Microsoft Power Platform ecosystem, with hands-on experience in Power Apps and SharePoint. Certified in Microsoft Azure Fundamentals (AZ-900), SAP, multiple Workato automation modules, and Intro to DevOps, demonstrating a solid understanding of cloud, enterprise systems, and continuous delivery practices. Passionate about solving real-world problems with clean, efficient code and automation.

WORK EXPERIENCE

Software Developer, Gijima

10/2025 – Present
Cape Town

Currently involved in the development of Survey Apps and Tool management app at Gijima using Microsoft Power Platform, building Power Apps solutions integrated with SharePoint for secure data management. Designed automated workflows with Power Automate to streamline business processes and notifications. Contributed to the development of a React apps (OH Survey & Team Scrum Board) using React and TypeScript, implementing secure authentication and role-based access control with Microsoft Entra ID. Worked on front-end component development, API integrations, responsive UI design, and performance optimization. Actively participated in Agile/Scrum ceremonies while handling debugging, and deployments across development and production environments. Familiar with using Azure DevOps Boards for task management, and tracking development progress.

Software Developer, Capaciti

10/2024 – 10/2025

Back-end and API developing, creating web applications using various programming languages. Collaborated with a Scrum team following Agile methodology. Deliver team presentations, project delivery. Developed responsive UI with React, HTML, CSS and Bootstrap. Built full-stack applications (Banking App, Weather App, Task Management, E-Commerce) and deployed them using Render, Netlify, and Vercel. Developed RESTful APIs with Spring Boot, implemented JWT authentication. Integrated Front-end with APIs, tested with Insomnia tool. Used Docker for app containerization. Managed database (MySQL, PostgreSQL), ensured query optimization. Designed automated workflows, recipes with Workato platform, Slack, G-Mail, and Google Sheets. Implemented error handling, logging, and user-triggered Slack flows.

Managed and resolved PBK Jira tickets related to codebase maintenance and updates, modifying SMB repositories in IntelliJ to implement UI and link changes. Collaborated within a Scrum team following Agile practices, including stand-ups and sprint ceremonies. Performed front-end testing on the CIS Form to ensure UI/UX consistency and functionality, and validated API integrations using Insomnia. Maintained help documentation, managed database updates using DBeaver, and conducted testing across Dev, Integration, and Production environments to ensure reliable deployments.

EDUCATION

National Diploma in ICT in App Development, Walter Sisulu University 2020 – 2022

National Senior Certificate, JS Skenjana Senior Secondary School 2019 – 2019
Bachelor Pass with two distinctions

Certificates

- Microsoft AZ-900: Azure Fundamentals [🔗](#)
- Coursera: Intro to DevOps [🔗](#)
- Coursera: Meta Full Stack [🔗](#)
- Workato: Automation Pro III [🔗](#)
- Coursera: Implement SAP Solutions [🔗](#)
- Workato: Error Troubleshooting [🔗](#)

SKILLS

Databases

- MySQL Workbench, MySQL, DBeaver, PostgreSQL, MongoDB

Tools & Technologies

- Microsoft Office Suite, Jira, Git/Github, IntelliJ, Insomnia, VS Code, MS Visual Studio, Cloud Computing, Microsoft Azure, Docker, Powershell, Bash, CLI, System Deployment (CI/CD), Active Directory, Windows 11 Deployment & Troubleshooting, Workato for Automation, Microsoft 365

Extra Skills

- Data Back-up & Restoration, Endpoint Device configuration, Deployment Quality Assurance, Functional Testing, Installation Documentation

Languages & Frameworks

- Visual Basic .NET (in MS Visual Studio), C# .NET Framework, Java, Python (Flask), React, Node.js, Vue, HTML5, CSS/Bootstrap, TypeScript, JavaScript, Tailwind, Vercel, Netlify, Render, Railway, Neon

Soft Skills

- Teamwork, Strong Communication, Collaborative, Problem-solving, Time management, Analytical skills, Adaptability, Team Player, Customer Service, Attention to Detail

Extra tools

- Outlook, MS Teams, Slack Bot, Microsoft Power Apps, SharePoint, Visual Basics, Visual Studio Code, Excel, SharePoint Online(Lists), MS Power Automate (Cloud Flows), MS Power Apps (Canvas App)
