Professional Summary

ICT graduate and Microsoft-certified professional with 2+ years hands-on experience in software development, Microsoft Power Platform, and cloud technologies. Experienced in developing secure applications using Power Apps, React, and SharePoint, while automating business processes with Power Automate and Workato. Skilled in QA testing, API validation using Insomnia, and collaborating in Agile teams with Azure DevOps and Jira. Passionate about solving technical problems, delivering reliable solutions, and continuously expanding my expertise in Microsoft technologies, data engineering, quality assurance and cloud computing.

Work Experience

Software Developer, Gijima 06/2025 – Present
Cape Town

- Built 3+ Survey Apps and Tool Management solutions in Power Apps integrated with SharePoint, improving secure data handling across teams.
- Designed automated workflows with Power Automate, reducing manual notifications and approvals.
- Developed a production-ready React application OH Survey with role-based authentication via Microsoft Entra ID and JWT, enhancing security compliance.
- Optimized front-end components and API integrations, improving UI responsiveness and load times by approximately 30%.
- Actively contributed to Agile ceremonies, debugging, and deployments across dev and production environments.

Software Developer, Capaciti 10/2024 – 05/2025
Cape Town

- Delivered full-stack applications (Banking, Weather, etc) deployed via Render, Netlify, and Vercel.
- Built RESTful APIs with Spring Boot and JWT authentication, ensuring secure user access.
- Containerized apps with Docker, improving deployment consistency across environments.
- Managed MySQL/PostgreSQL databases, achieving query optimization that improved response times.
- Automated workflows with Workato, Slack, and Google Sheets, enabling error-free reporting and faster team communication.

Software Developer / QA Analyst intern, Mercedes-Benz 04/2024 – 09/2024
East London

- Resolved Jira tickets and maintained SMB repositories in IntelliJ, ensuring stable codebase updates.
- Conducted front-end testing on the CIS Form, improving UI/UX consistency across environments (Dev, Int, and Prod).
- Worked closely with test engineers and developers to validate API integrations.
- Collaborated in Agile ceremonies, gaining exposure to cross-functional teamwork between QA and development.
- Supported database updates with DBeaver and maintained help documentation.

Education

National Diploma in ICT in App Development , <i>Walter Sisulu University</i> (cum laude)	2020 – 2022
National Senior Certificate , <i>JS Skenjana Senior Secondary School</i> (Bachelor Pass with two distinctions)	2019 – 2019

Certifications

- [Microsoft AZ-900: Azure Fundamentals](#) 
- [Microsoft AB-730: AI Business Professional](#) 
- [Microsoft DP-700: Fabric Data Engineer Associate](#) 
- [Microsoft PL-900: Power Platform](#) 

Projects

[Team Scrum Board](#)

Developed a full-stack Agile project management application with role-based authentication, task tracking, team collaboration, and project dashboards.

[Banking App](#)

Secure banking application with user authentication and account management.

[OH Survey App](#)

Developed a digital OH survey application that automates data collection, report generation, and secure user authentication.

[Weather App](#)

Created a responsive weather application that retrieves and displays real-time weather using a public API.

Skills

Databases

- MySQL Workbench, MySQL, DBeaver, PostgreSQL, MongoDB, Neon, Microsoft Access

Tools & Technologies

- Jira, Git/Github, IntelliJ, Insomnia, Cloud Computing, Docker, PowerShell, Bash, CLI, System Deployment (CI/CD), Active Directory, Workato for Automation

Microsoft Technologies

- Microsoft 365, Slack Bot, Azure DevOps, Azure, Microsoft Entra ID, Visual Basic, VS Code, Excel, SharePoint (Online Lists), Power Automate (Cloud Flows), Power Apps (Canvas App), Visual Studio, Power BI, Fabric

Languages & Frameworks

- Visual Basic .NET (in MS Visual Studio), C# / .NET Framework, Java, Python (Flask), React, Node.js, Vue, HTML5, CSS/Bootstrap, TypeScript, JavaScript, Tailwind, Vercel, Netlify, Render, Railway

Soft Skills

- Teamwork, Strong Communication, Collaborative, Problem-solving, Time management, Analytical skills, Adaptability, Customer Service, Attention to Detail

Testing & QA

- Manual Testing, Functional Testing, Regression Testing, Integration Testing, UAT, API Testing, Deployment Quality Assurance
