PROFILE

Motivated and adaptable ICT Graduate with strong foundational skills in software development and business process automation. Proficient in C#, Java, Python, HTML5, CSS, and the React framework, with experience in version control using Git and agile collaboration through Jira. Currently growing as a Junior Automation Developer using the Workato platform to streamline workflows and integrate systems. Certified in Microsoft Azure Fundamentals (AZ-900), SAP, multiple Workato automation modules, and Intro to DevOps, demonstrating a solid understanding of cloud, enterprise systems, and continuous delivery practices. Passionate about solving real-world problems with clean, efficient code and automation.

WORK EXPERIENCE

Software Developer Intern, Capaciti 10/2024 – 05/2025

- Back-end and API developing, creating web applications using various programming languages.
- Collaborated with a Scrum team following Agile methodology.
- Deliver team presentations, project delivery. Obtained certifications in Advanced Programming, SAP Fundamentals and Microsoft AZ-900.
- Developed responsive UI with React, HTML, CSS and Bootstrap.
- Built full-stack applications (Weather App, Task Management, E-Commerce) and deployed them using Render, Netlify, and Vercel.
- Developed RESTful APIs with Spring Boot, Implemented JWT authentication.
- Integrated Front-end with APIs, tested with Insomnia tool.
- Used Docker for App containerization.
- Managed database (MySQL, PostgreSQL), ensured query optimization.
- Designed automated workflows, Recipes with Workato platform, Slack, G-Mail, and Google sheets.
- Implemented error handling, logging, and user-triggered slack flows.

IT intern, Mercedes-Benz 04/2024 – 09/2024

- Managed and resolved PBK Jira tickets related to codebase maintenance and updates.
- Accessed and modified SMB repositories using IntelliJ to implement changes such as updating links and UI components.
- Actively collaborated with a Scrum team, participating in Agile Methodology including stand-ups, sprint reviews, and sprint retrospectives.
- Conducted front-end testing on the CIS Form within the SMB Application to ensure UI/UX consistency and functionality.
- Utilized the Insomnia API client to send HTTP requests and download reports, validating API responses and integrations.
- Maintained and updated help documentation, ensuring users had access to the latest support resources.
- Used DBeaver to connect to the SMB database for uploading new documents, creating tables, and inserting records to support application functionality.

- Performed all changes and testing within three different environments - Dev, Int (Integration), and Prod ensuring quality and reliability before deployment to production.

EDUCATION

Diploma in ICT in App Development, *Walter Sisulu University*

2020 – 2022

Matric, *JS Skenjana Senior Secondary School*

2019 – 2019

Bachelor Pass with two distinctions

Certificates

- | | | |
|--|---|--|
| • Microsoft AZ-900: Azure Fundamentals ☑ | • Coursera: Intro to DevOps ☑ | • Coursera: Meta Full Stack ☑ |
| • Workato: Automation Pro III ☑ | • Coursera: Implement SAP Solutions ☑ | • Workato: Error Troubleshooting ☑ |

SKILLS

Databases

- MySQL, DBeaver, PostgreSQL, MongoDB

Soft Skills

- Teamwork, Effective Communication, Problem-solving, Time management, Analytical skills, Adaptability, Team Player, Customer Service, Attention to Detail

Extra tools

- Outlook, MS Teams, Slack Bot

Languages & Frameworks

- Visual Basic .NET (in MS Visual Studio), C# .NET Framework, Java, Python (Flask), React, Vue, HTML5, CSS, JavaScript

Tools & Technologies

- Microsoft Office Suite, Jira, Git/Github, IntelliJ, Insomnia, VS Code, MS Visual Studio, Cloud Computing, Microsoft Azure, Powershell, Bash, CLI, System Deployment (CI/CD), Active Directory, Windows 11 Deployment & Troubleshooting, Workato for Automation

Extra Skills

- Data Back-up & Restoration, Endpoint Device configuration, Deployment Quality Assurance, Functional Testing, Installation Documentation
